DBIZLABS PRIVATE LIMITED

MEETING OF THE BOARD OF DIRECTORS

MINUTES OF THE 48TH REGULAR BOARD MEETING

Date: FRIDAY, 11 SEPTEMBER 2026

Time: 09:00 HOURS SINGAPORE TIME (GMT +08:00)

Venue: GREAT ROOM, LEVEL 22, MARINA ONE WEST TOWER

10 MARINA BOULEVARD, SINGAPORE 018961

Secretary: MS. SANGEETHA MURALI, COMPANY SECRETARY

=====

PRESENT AND IN ATTENDANCE:

MEMBERS OF THE BOARD OF DIRECTORS (Voting Members, Quorum):		
1. Dr. Lingeswaran Arunasalam	Chairman of the Board (Independent Director)	Chair
2. Mr. Siva Pasupathi	Chief Executive Officer & Executive Director	Present In-Person
3. Ms. Amala Appathurai	Chief Technology Officer & Executive Director	Present In-Person
4. Ms. Karthiga Rajoo	Chief Financial Officer & Executive Director	Present In-Person
5. Ms. Divya Muthu	Chief Operating Officer & Executive Director	Present In-Person
6. Ms. Narmadha Sivakumar	Chief Product Officer & Executive Director	Present In-Person
7. Ms. Nandhini Sivakumar	Independent Director	Present In-Person

OBSERVERS IN ATTENDANCE (Non-Voting, Invited):		
- Mr. Santhana Krishnan	Head of Legal & Data Protection Officer	Present In-Person
- Ms. Priya Venkatesh	Head of Internal Audit & Risk Compliance	Present In-Person

IN ATTENDANCE BY INVITATION FOR SPECIFIC AGENDA ITEMS:

- (Not applicable for this meeting; all observers present throughout)

SECRETARY:		
- Ms. Sangeetha Murali	Company Secretary, Rajah & Tann LLP	Present In-Person

APOLOGIES FOR ABSENCE:

- Nil. All seven Directors confirmed attendance.

QUORUM: 7 out of 7 Directors are present. QUORUM IS DULY CONSTITUTED (quorum required = majority of Directors, minimum 4 per Article 63 of the Company's Constitution).

=====

AGENDA AND TIMELINE

=====

Time	Item	Presenter
09:00?09:03	1. Call to Order, Quorum Confirmation, and Approval of Meeting Agenda	Chairman
09:03?09:10	2. Approval of Minutes of Previous Board Meeting dated 12 June 2026 and Status of Outstanding Action Items	Secretary
09:10?09:35	3. Chief Executive Officer: Strategic Update and Q3 FY2026 Business Performance Review	CEO
09:35?09:55	4. Chief Financial Officer: Q3 FY2026 Financial Report, Cash and Liquidity Position, Audit & Tax Matters	CFO
09:55?10:20	5. Chief Technology Officer: R&D Update, AI Platform Roadmap, SOC 2 and Data Residency Programme	CTO
10:20?10:40	6. Chief Product Officer: Product KPIs, NPS Results, Customer Wins and Roadmap Review	CPO
10:40?10:55	7. Chief Operating Officer: People & Organisation Update, Attrition, D&I Metrics, Hiring Progress	COO
10:55?11:15	8. Head of Internal Audit & Risk: Risk & Compliance Update ? AI Governance Act, DP Audit, Cyber Drill, FX	Head of IA
11:15?11:25	9. Any Other Business (AOB)	All Directors
11:25?11:27	10. Confirmation of Date of Next Board Meeting	Chairman
11:27?11:28	11. Adjournment	Chairman

=====

ITEM 1: CALL TO ORDER, QUORUM AND AGENDA APPROVAL (09:00?09:03)

=====

The Chairman, Dr. Lingeswaran Arunasalam, called the 48th Regular Meeting of the Board of Directors of DBizLabs Private Limited to order at 09:00 hours SGT on Friday, 11 September 2026 in the Great Room, Level 22, Marina One West Tower.

The Chairman welcomed all Directors, the invited observers, and the Company Secretary. He noted that this was the first Board meeting since the successful close of Q3 FY2026, which had been an exceptionally strong quarter across all metrics, and thanked the Executive team and every DBizLabs employee for delivering the results.

Quorum: The Secretary confirmed that seven (7) out of seven (7) Directors were in attendance, exceeding the quorum of four (4) Directors required by the Company Constitution. The quorum was declared by the Chairman as duly constituted and valid.

The Chairman proposed the circulated meeting agenda for formal approval by the Board.

UNANIMOUS BOARD RESOLUTION B-48-01:

RESOLVED THAT the agenda for the 48th Regular Board Meeting, circulated under cover of the Secretary's memorandum dated 28 August 2026, be and is hereby approved, with no additions, amendments, or deletions.

Voting on Resolution B-48-01: 7 in favour, 0 against, 0 abstentions.

CARRIED UNANIMOUSLY.

Conflict of Interest Declarations: The Chairman asked all Directors to declare any direct or indirect interest in any of the business to be transacted at this meeting. After a short pause, the following declarations

were noted and recorded in the Register of Directors' Interests maintained by the Secretary:

- Dr. Lingeswaran Arunasalam declared a non-material indirect interest in Item 9 (Temasek Holdings meeting) in his capacity as an external advisor to a Temasek portfolio company in the medtech space; confirmed that the interest was sufficiently remote that he would not recuse himself from discussion or voting.
- Ms. Nandhini Sivakumar declared that her sister is an employee of KPMG Singapore; the KPMG audit rotation matter was noted under Item 4 and she confirmed she would recuse herself from voting on Resolution B-48-05 (auditor appointment) to avoid appearance of conflict.

All other Directors declared no interest in any item of business.

ITEM 2: APPROVAL OF MINUTES OF PREVIOUS MEETING AND ACTION ITEM STATUS (09:03?09:10)

The Secretary, Ms. Sangeetha Murali, tabled the draft Minutes of the 47th Regular Board Meeting held on Thursday, 12 June 2026, which had previously been circulated to all Directors under cover of the Board Pack (Tab B).

Directors were asked to raise any corrections, amendments, or queries. Director Narmadha Sivakumar noted that Action Item 47-07 (Product roadmap prioritisation workshop with Engineering) had been incorrectly recorded as led by the CTO; she clarified that the workshop had been co-chaired by herself (CPO) and the CTO. The correction was accepted by the Secretary. No other amendments were proposed.

UNANIMOUS BOARD RESOLUTION B-48-02:
RESOLVED THAT the Minutes of the 47th Regular Board Meeting dated 12 June 2026, as amended with the correction to Action Item 47-07 ownership, be and are hereby approved as a true and correct record of the proceedings at that meeting, and the Chairman is hereby authorised to sign the final Minutes accordingly.

Voting: 7 in favour, 0 against, 0 abstentions. CARRIED UNANIMOUSLY (7-0).

Status of Action Items from the 12 June 2026 Meeting (Tab B, Annex 1):

The Secretary tabled the status of the 11 outstanding action items from the previous meeting. Summary status:

47-01	CFO	Finalise Series B investment agreement documentation. CLOSED 3 Jul 2026. All documents executed; funds drawn.
47-02	CTO	Complete Playwright web-loader beta rollout across all ingestion pipelines. CLOSED 23 Aug 2026. Rollout completed 100%.
47-03	CEO	Sign non-binding term sheet with Meiji Japan joint venture counterparty. CLOSED 3 Sep 2026. Term sheet signed 3 September.
47-04	CPO	Launch G2 Crowd Q3 submission for all three product lines. CLOSED 15 Aug 2026. Submitted. Leader results received.
47-05	CFO	Establish S\$50 million commercial paper shelf programme with DBS, OCBC, UOB. CLOSED 29 Jul 2026. Shelf fully executed, undrawn.
47-06	COO	Complete FY2026 Q2 attrition root-cause analysis report. CLOSED 22 Jul 2026. Report distributed to RemCo on 23 Jul.
47-07	CPO/ CTO	Conduct product roadmap prioritisation workshop with Engineering and Sales leadership. CLOSED 8 Aug 2026. Output: Q4 roadmap finalised and published internally 11 Aug 2026.
47-08	LEGAL	Submit R&D tax incentive claim for FY2025 basis period to IRAS. IN PROGRESS. Deadline 30 Sep 2026. 95% complete. Final QC review with EY advisor scheduled for 24 Sep 2026. Owner confirms on track.
47-09	IA	Conduct SG AI Governance Act gap analysis and initial impact assessment. IN PROGRESS. Phase 1 report tabled under Item 8 today. Phase 2 remediation plan target: 31 Oct 2026.
47-10	CTO	Kick-off SOC 2 Type II readiness project with Schellman assessors. IN PROGRESS. Kick-off meeting confirmed 14 Oct 2026. Pre-readiness questionnaire 80% complete.
47-11	CEO	Initiate FY2027 budget and long-range planning process. ON TRACK. Kick-off memo distributed to ELT 1 Sep 2026. First budget reviews: 25 Sep and 2 Oct 2026.

Summary: 8 of 11 action items from 12 June 2026 meeting are CLOSED. The 3 remaining items are ON TRACK and within their respective deadlines. No action items are at risk or overdue. The Board expressed satisfaction with the close-out rate.

ITEM 3: CHIEF EXECUTIVE OFFICER STRATEGIC UPDATE (09:10?09:35)

Mr. Siva Pasupathi, Chief Executive Officer, delivered the strategic update, referencing Board Pack Tab C (CEO Q3 FY2026 Strategy Deck, 38 slides). The full slide deck is appended to the minutes as Annex C and maintained with the Company's statutory records.

3.1 Q3 FY2026 Performance Headlines

The CEO began by reiterating the headline Q3 performance. Total revenue for the quarter ended 30 September 2026 was S\$18.42 million, representing 28.6% year-over-year growth, exceeding the mid-point of the Board-approved Q3 guidance range of S\$17.6?18.6 million. Year-to-date 9M FY2026 revenue

was S\$50.81 million (+26.7% YoY), tracking 102.3% of internal plan.

The CEO noted that all three product lines had delivered or exceeded targets: Meiji MES at 103% of quarterly quota, Bond Copilot at 112%, and Hirethm at 105%. Net new ARR of S\$6.34 million was the second highest in the company's history, behind only Q4 FY2025's record S\$7.08 million.

3.2 Meiji Japan Joint Venture ? Term Sheet Signed

The CEO highlighted that the Meiji Japan joint venture non-binding term sheet was signed on 3 September 2026, closing out Action Item 47-03. Under the proposed terms (Tab C, Slide 16), DBizLabs will contribute intellectual property license to the Meiji MES platform and its local Japan go-to-market team, while Meiji Seika Kaisha (the counterparty) will contribute manufacturing domain expertise, existing customer relationships across the Meiji group of companies, and a 60/40 equity split favouring DBizLabs at 60%. The JV will be domiciled in Tokyo with a JPY 500 million initial capitalisation.

Key next steps outlined:

- Definitive agreements drafting (led by Santhana Krishnan, with Nishimura & Asahi as Japanese counsel) ? target execution 30 Nov 2026
- JV Board composition: 3 DBizLabs nominees + 2 Meiji nominees, with Dr. Lingeswaran Arunasalam proposed as non-executive Chairman of JV
- Commercial go-live of JV operations: 1 February 2027 (FY2027 Q3)

The CEO noted that the JV was expected to contribute approximately S\$2.0? 2.5 million of consolidated revenue in FY2027, growing to S\$8?10 million run-rate by FY2028. This was, however, NOT included in the current Q4 FY2026 guidance; guidance conservatively assumed no JV contribution.

Independent Director Nandhini Sivakumar asked whether any competing industrial MES AI vendors were actively pursuing the Japan market with local partners. CEO confirmed that two US-based competitors had announced distributor partnerships but not a full equity JV; the DBizLabs?Meiji structure was unique in depth of domain integration and commitment of manufacturing data.

3.3 Bond Copilot Enterprise Momentum

Bond Copilot closed Q3 with 8 identifiable enterprise logos with >S\$500k ACV, including three global tier-1 banks headquartered in Singapore, London, and New York. The CEO highlighted the 18 September 2026 go-live of a Fortune 500 US pension fund (ACV S\$1.96 million) as a notable win, with the customer having replaced a competing generative-AI solution from Microsoft after a 6-month side-by-side bake-off. The key differentiators cited by the customer in their post-win debrief were: Bond Copilot's citation-grounded answers (faithfulness >92%), the depth of fixed-income domain-specific RAG training data, and the maturity of the Audit & Compliance Pack.

3.4 Hirethm Public Sector RFP Pipeline

The CEO reported three Hirethm public sector RFPs currently in the final evaluation stage:

- (1) Singapore Public Service Division (PSD), whole-of-government HR shared services ? contract value est. S\$4.2 million over 3 years. Hirethm shortlisted (2 of 6 vendors). Final oral presentation: 22 September 2026.
- (2) State Government of Tamil Nadu, Public Service Commission ? 2-year implementation + 3 years operations, S\$1.74 million ACV referenced in the financial report. Award date: 15 October 2026.
- (3) Abu Dhabi Department of Health ? Healthcare Workforce Management Platform, est. contract value US\$3.4 million over 5 years. Shortlisted; technical Q&A response submitted late August.

3.5 FY2027 Targets ? 25% Growth

Finally, the CEO previewed the initial FY2027 targets that would be further developed in the budget process (Action Item 47-11):

- Revenue growth: 25%+ YoY (full year basis)
- Gross margin band: 72?74%
- Adjusted EBITDA margin: 22?25%
- Headcount exit target: 415 FTEs (from 317 at end of Q3 FY2026)
- AI-attributed ACV share: 25% of total new ACV

The Chairman thanked the CEO for a comprehensive and encouraging update and opened the floor for brief Director questions before moving to the CFO report. Dr. Lingeswaran asked specifically about the quality of the Q3 pipeline going into Q4; CEO confirmed that Q4 pipeline coverage was currently running at 3.4x the mid-point of the S\$21.2?22.3m guidance, which compared favourably to the historical 2.9x coverage at the same stage of prior Q4s.

ITEM 4: CHIEF FINANCIAL OFFICER REPORT (09:35?09:55)

Ms. Karthiga Rajoo, Chief Financial Officer, presented the Q3 FY2026 Financial Report (Tab D, 44 pages), Income Statement, Balance Sheet, Cash Flow Statement, and supporting schedules. The audited Q3 figures and detailed analysis were also published on 10 October 2026 in the shareholder Q3 Financial Report (File 1 of this document set).

4.1 EBITDA and Profitability

CFO reported EBITDA of S\$3.81 million (20.7% margin) versus S\$2.52 million in Q3 FY2025, a 51.2% YoY increase in absolute EBITDA. This significantly exceeded the Board-approved internal plan for the quarter (EBITDA target S\$3.40 million, 18.5% margin). She credited:

- The 180 basis point gross margin expansion to 71.4%
- OpEx discipline with opex growing 25.2% vs. revenue growing 28.6%
- S\$0.34 million of government R&D grants recognised during the quarter under the SG Tech@DTS scheme

Adjusted EBITDA (adding back one-time JV advisory fees of S\$0.18 million and a S\$0.09 million legal settlement from a Q2 vendor dispute) was S\$4.08 million, or 22.1% of revenue.

4.2 Working Capital and DSO

Days Sales Outstanding (DSO) stood at 68 days as of 30 September 2026, down from 74 days on 30 June 2026 and 79 days on 30 September 2025. The CFO attributed the improvement to a dedicated collections task force established under the COO in June, and to increasingly favouring prepayment terms (0?30 days) for deals in negotiation wherever possible. She also noted that 5 of the 5 customers who exceeded S\$1m ACV in the quarter had prepaid at least 50% of their annual contract value.

Target for Q4 FY2026 was 63?65 days DSO, which would represent a 16-day YoY reduction. This would translate into approximately S\$1.2?1.5 million of additional operating cash flow in Q4 if achieved.

4.3 Cash Position and Series B Runway

Cash and cash equivalents stood at S\$23.6 million on 30 September 2026, up from S\$19.4 million at the end of Q2 FY2026.

The CFO presented the current "Series B Runway" model (Tab D, Page 39). Assuming current burn rates, the S\$23.6 million of cash plus undrawn S\$50.0 million commercial paper shelf implied a total liquidity runway of approximately 22 months to 31 July 2028 at the downside case, or 27 months to 31 December 2028 at the base case (25% revenue growth, 22% EBITDA margin FY2027 onwards). The Board noted that the company was well capitalised and no further equity fundraising was contemplated in the next 18 months, barring unforeseen circumstances.

4.4 FX Hedging ? SGD/USD

The CFO reported that during the quarter the Singapore Dollar had strengthened +2.3% against the US Dollar (from 0.729 to 0.746), which was a small net positive of approximately S\$0.12 million on reported Q3 revenue. SGD/USD movements were the largest single FX exposure, followed by EUR/SGD (S\$18k/1%).

Currently 55% of forecast USD receivables on a rolling 6-month horizon are hedged via forward contracts, plus S\$10 million of option-based collars protecting below SGD/USD 0.715 or above 0.765. The CFO proposed a modest increase of the hedge ratio from 55% to 60% effective October 2026, given the increased USD pipeline in the Americas region. She noted that this remained well below the Board's authorised maximum hedge ratio of 80% and was purely risk reduction, not directional positioning.

The Board approved, by way of Resolution B-48-03 (taken on a show of hands), the increase of the FX hedge ratio to 60%.

4.5 Commercial Paper Shelf Programme

The CFO confirmed that the S\$50.0 million multi-currency commercial paper shelf programme (Action Item 47-05) had been successfully established on 29 July 2026 with DBS Bank, OCBC Bank, and United Overseas Bank acting as joint arrangers and dealers. The programme is:

- 3-year revolving shelf (maturity 29 Jul 2029)
- Tenor of individual CP issues: 1 month to 12 months
- Borrowing cost: SORA + 78 to 135 bps depending on tenor, credit tier, and market conditions at issue
- Fully undrawn as at 11 September 2026
- Covenants: Net gearing < 1.0x, minimum liquidity S\$10.0m, interest cover > 5.0x (all comfortably within current levels)

The CFO stated that there were no current plans to draw on the shelf; it was maintained as a strategic liquidity buffer.

4.6 Audit Rotation: KPMG ? PwC

As required by the Singapore Companies Act Section 392CA (mandatory audit firm rotation after 5 consecutive financial years), the term of the current external auditor KPMG LLP will conclude at the end of the current financial year ending 30 June 2027 (FY2026).

The CFO, on recommendation of the Audit & Risk Committee (which met on 21 August 2026 and again on 5 September 2026), proposed the appointment of PricewaterhouseCoopers LLP (PwC Singapore) as external auditor for the financial year ending 30 June 2027 (FY2027), the year ending 30 June 2028 (FY2028), and the year ending 30 June 2029 (FY2029), with the 3 terms to run consecutively subject to annual reappointment by shareholders at the AGM.

The competitive tender process had shortlisted 3 Big-4 firms (Deloitte, EY, and PwC). Evaluation criteria and scoring (maximum 100 points):

- Technical competence of proposed audit team: 40 points (PwC 37/40)
- Industry experience (SaaS, AI, software): 25 points (PwC 23/25)
- Proposed fee structure and commercial terms: 20 points (PwC 17/20)
- Chemistry with ELT, quality of insights, innovation: 15 points (PwC 14/15)
- Total score: PwC 91, Deloitte 84, EY 78.

Estimated FY2027 audit fee: S\$485,000 (vs. KPMG FY2026 fee of S\$420,000), which represents a 15.5% increase, reflecting the larger scale and complexity of the audit (subsidiaries in 7 jurisdictions, AI Act compliance work, SOC 2 Type II controls integrated audit).

UNANIMOUS BOARD RESOLUTION B-48-04:

RESOLVED THAT, pursuant to Section 392CA of the Companies Act 1967, the retirement of KPMG LLP as the external auditors of the Company at the conclusion of the FY2026 audit (30 June 2027) is hereby NOTED, and the Company's Audit & Risk Committee be and is hereby authorised to manage the smooth handover and transition from KPMG to the incoming auditors.

Voting: 7 in favour, 0 against, 0 abstentions. CARRIED 7-0.

BOARD RESOLUTION B-48-05:

RESOLVED THAT the Board, on the recommendation of the Audit & Risk Committee, nominates PricewaterhouseCoopers LLP ("PwC Singapore") for appointment as external auditors of DBizLabs Private Limited for the financial years ending 30 June 2027, 30 June 2028, and 30 June 2029, at such remuneration as shall be agreed between PwC and the Audit & Risk Committee, and FURTHER RESOLVED THAT this nomination be put to the shareholders for formal approval at the forthcoming Annual General Meeting to be held on 20 February 2027.

Voting on Resolution B-48-05: Ms. Nandhini Sivakumar recused herself (declared interest under Item 1). Of the remaining 6 Directors: 6 in favour, 0 against, 0 abstentions. CARRIED UNANIMOUSLY (6-0-1 recusal).

4.7 R&D Tax Claims Submission

The CFO reported that the FY2025 basis period R&D tax incentive claims under IRAS Productivity Solutions Grant (PSG) and the Tech@DTS double deduction scheme were currently with external advisor EY for final verification and would be submitted to IRAS on 30 September 2026. The total value of claims (cash payout plus additional tax deductions) was estimated at S\$2.84 million, of which S\$1.62 million was expected to be received as cash refund in Q2 FY2027. Independent Director Nandhini Sivakumar requested that the CFO provide the Remuneration Committee with a summary of R&D tax claims history vs. actual R&D spend by programme, for use as one input in the FY2026 annual bonus calculation, and the CFO undertook to provide this by 25 September.

ITEM 5: CTO AND R&D UPDATE (09:55?10:20)

Ms. Amala Appathurai, Chief Technology Officer, presented the R&D and Technology Platform update (Board Pack Tab E, 46 slides with engineering metrics and dashboards).

5.1 DBiz GPT Platform ? Ingestion and Vector Stack Update

The CTO began with the completion of the Playwright web-loader rollout (Action Item 47-02, closed 23 Aug). The CTO reported that Playwright v1.60 had now replaced the legacy Cheerio + pdf.js based HTML ingestion pipeline for all 12 document source types, with a measured improvement of:

- 21.4% reduction in document processing time per 1,000 pages (from 74 seconds to 58 seconds)
- 37% reduction in chunking errors for JavaScript-rendered content
- 14.2% improvement in RAG answer faithfulness scores for web-sourced documents in the internal dev QA harness

Environment variable PLAYWRIGHT_WS_URL=ws://playwright:3000 is now the standard deployment configuration for all clusters, with 8 Playwright worker pods in the primary SG cluster and 4 workers each in EU and US standby clusters.

Vector database stack architecture (finalised after 4 months of testing against Pinecone, Weaviate, and Qdrant alternatives):

- PRIMARY: pgvector running on PostgreSQL 16 with IVFFlat indexes on 2048-dimension BGE-M3 embeddings, as part of the primary OLTP database on AWS RDS Aurora Serverless v2 (PostgreSQL-compatible)
- FALLBACK / EDGE: Chroma open-source vector store deployed on regional edge Kubernetes clusters, for low-latency EU and US queries
- Approximately 200,000 chunks indexed across all tenants as of 11 September 2026, growing at approximately 32,000 chunks/month
- Hybrid search combining BM25 keyword matching with ANN approximate nearest-neighbour embedding search, weighted 0.35 BM25 / 0.65 ANN on general queries and adaptive weights per-query

5.2 Embeddings, Chunking and Reranking Stack

- Embeddings Model: BAAI/bge-m3 (multilingual BGE-M3). This model was selected over alternatives (text-embedding-3-large, Voyage-Law-2, Cohere-embed-multilingual-v3) after a 6-week evaluation on the DBizLabs internal 12-document-type QA golden set. BGE-M3 scored highest on SG English + Tamil + Mandarin multilingual retrieval tasks and on cross-domain retrieval (Bond pricing + manufacturing SOPs). Deployed self-hosted on 2x g5.xlarge instances per region to avoid API-call latency and for data residency compliance.
- Chunking strategy (now formalised in the internal Chunking Policy version 3.1):
 - * Unstructured.io pre-processing for PDFs, DOCX, XLSX, HTML, MSG, PPTX
 - * Primary strategy: Recursive character chunking with chunk_size = 900 tokens, chunk_overlap = 120 tokens.
 - * Secondary (domain-aware): Semantic chunking based on BGE-M3 similarity boundary detection, applied only to long-form technical manuals (Meiji MES SOPs) and Bond pricing research notes where structural integrity matters more than uniformity.
 - * CSV and tabular data: Hierarchical table-recognising chunker from the Unstructured.io library, preserving row-group semantics.
- Reranker: ColBERT-IR v2 (colbert-ir-v2) deployed as the primary reranker in Q4 FY2026, replacing the current interim reranker based on cross-encoder/ms-marco-MiniLM-L-12-v2. Expected to deliver a measured 6?9% improvement in RAG faithfulness on adversarial QA. Currently under load testing; target GA: 1 December 2026.

5.3 RAG Faithfulness and Evaluation Results

The CTO presented Q3 2026 RAG evaluation results (Tab E, Pages 21?27). Across the internal development QA harness of 1,800 golden Q&A pairs

- spanning 12 document types:
- RAG faithfulness score (Ragas v0.1.22 "faithfulness" metric): 91.3% (Q2 FY2026: 87.4%, Q1 FY2026: 83.8%)
 - Answer relevancy: 94.1% (Q2: 90.2%)
 - Context precision: 92.7% (Q2: 88.4%)
 - Context recall: 90.8% (Q2: 86.1%)
 - Hallucination rate (human-checked 5%-subsample): 3.2% of answers contained any material unsupported claim, down from 7.1% in Q2.

CTO emphasised that the 92% faithfulness target referenced in the AI Strategy Whitepaper (Item 8, Appendix KPIs) was now within reach for Q4 FY2026, after the ColBERT v2 reranker and additional BGE-M3 fine-tuning on DBizLabs domain data went live.

5.4 MCP (Model Context Protocol) Server Rollout

The CTO reported that the MCP-based agent tool ecosystem was now in active production. 11 MCP servers were live and registered with the central MCP registry as at 11 September 2026:

1. Jira Cloud (ticket creation, status updates, sprint queries)
2. Gmail & Google Workspace Calendar (email search, calendar CRUD)
3. Slack Enterprise (post messages, search history, user lookup)
4. Finance-ERP (NetSuite; invoice status, AP/AR, budget vs actual)
5. Meiji-MES (OEE readings, quality alerts, production schedule feed)
6. Hirethm-ATS (candidate search, interview booking, offer approvals)
7. Bond-Pricing (yield curve lookups, scenario simulation trigger, bond analytics calculations)
8. Calendar v2 (cross-Microsoft 365 + Google unified)
9. Google Drive v3 (search Drive items, read/write docs/sheets)
10. Notion API (pages, databases, comments)
11. Internal Wiki (Confluence DC 8.5 read-only + search)

Each MCP server implements 12738 tools, bringing the total registered tools available to agents to 243 as of the meeting date. Tool-use success rate (measured by correct parameter validation and no exception on tool call execution) was 88.6% in Q3, target 90% for Q4.

5.5 Agentic Copilot 1.1 ? Planning Module

The CTO reported that Agentic Copilot v1.1, which introduces a dedicated planning module combining ReAct prompting with Tree of Thoughts (ToT) branch-and-prune exploration for complex multi-step tasks, was currently in final QA stage. She shared benchmark results on the 300-task DBizLabs internal agent benchmark:

- Task completion rate (v1.0 baseline): 68.3%
- Task completion rate (v1.1, QA build 58): 79.6% (+11.3 percentage points absolute)
- Average end-to-end latency reduction: 15.2% lower than v1.0 on matched tasks
- Cost per task (LLM tokens): -4.3% compared to v1.0 (due to better pruning in ToT reducing wasted tokens on dead-end paths)

Director Nandhini Sivakumar asked about guardrails around the ToT module to prevent unbounded token consumption. CTO confirmed that per-query token budgets and per-agent execution-time budgets were enforced at the LangGraph orchestration layer:

- "Sensible default" budget: 25,000 input tokens, 12,000 output tokens, 5 minutes wall-clock time
- "Complex task" budget (triggered by user request and auto-approve threshold): 100,000 input tokens, 50,000 output tokens, 20 minutes
- "Executive override" budget: Requires CTO or her deputy to sign a manual budget ticket; no hard upper bound but tracked and billed to the requestor's department for cost transparency.

5.6 Data Residency, SOC 2 Type II, and Multi-Region Deployment

The CTO outlined the three-region deployment architecture:

- PRIMARY CLUSTER: ap-southeast-1 (Singapore). All SG and APAC tenant data exclusively resident here. Production workloads, 14 Kubernetes nodes, RDS Aurora primary.
- EU CLUSTER: eu-west-1 (Ireland). EEA tenant data exclusively resident here, activated 14 August 2026. Currently 4 customers on the EU cluster.
- US CLUSTER: us-east-1 (North Virginia). US and Americas tenant data exclusively resident. Activated 1 September 2026; 2 customers in migration with go-live dates 2 October and 13 November 2026.

SOC 2 Type II audit readiness: The formal kick-off meeting with Schellman (third-party assessor) is scheduled for Tuesday, 14 October 2026 at 09:30 SGT. Pre-readiness self-assessment questionnaire is 80% complete. The Scope of the audit includes all three AWS regions, the DBiz GPT platform, Bond Copilot, and Meiji MES SaaS tenant environments (Hirethm to be added in a Phase 2 supplementary audit in Q2 FY2027). Expected period of audit: 1 October 2026 through 31 March 2027. Final SOC 2 Type II report delivery target: mid-May 2027.

=====

ITEM 6: CHIEF PRODUCT OFFICER ? PRODUCT & CUSTOMERS (10:20?10:40)

=====

Ms. Narmadha Sivakumar, Chief Product Officer, presented the Product and Customer KPIs update (Board Pack Tab F, 32 slides including the customer win/loss analysis).

6.1 Net Promoter Score (NPS)

Q3 FY2026 NPS (surveyed 15730 September 2026, n=218 responses across all product lines, 49.7% response rate):

- Meiji MES: NPS = 58 (Q2 FY2026 = 52; Q1 FY2026 = 47)
- Bond Copilot: NPS = 52 (Q2 = 48; Q1 = 44)
- Hirethm HR SaaS: NPS = 47 (Q2 = 44; Q1 = 40)
- Weighted average: NPS = 53 (Q2 = 48; Q1 = 44)

Industry benchmarks from the Blissfully 2026 SaaS NPS Report:

- Enterprise HR SaaS median NPS: 34
- Fixed-Income Financial Technology median NPS: 31
- Industrial / MES Software median NPS: 28

The CPO noted that all three products were tracking significantly above their respective industry medians. Comments tagged "AI" or "Copilot" features as the top positive driver in 61% of promoter comments ? a significant increase from 39% in Q2.

6.2 Churn and Retention Metrics

Gross revenue churn rate (weighted, trailing 3 months annualised): 4.1% across all products, down from 4.6% in Q2 FY2026 and 5.3% in Q3 FY2025.

By product:

- Meiji MES: 3.2% gross revenue churn (enterprise manufacturing accounts historically "sticky"; one downgrade in the quarter from a German chemical manufacturer who divested a plant)
- Bond Copilot: 5.1% gross revenue churn (two non-renewals from mid-tier hedge funds that consolidated AI tools post-acquisition; replaced in the same month by new ACV of 2.8x the lost revenue)
- Hirethm: 4.4% gross revenue churn (one mid-market customer moved to Workday after an ERP consolidation; net-negative churn offset by upsells)

Net Revenue Retention (NRR) on trailing 12-month basis: 121% overall. Meiji MES led at 126%, Bond Copilot 118%, Hirethm 117%. All comfortably above the Board-approved minimum 110% NRR target.

6.3 G2 Crowd and Analyst Recognition

The CPO announced that G2 Crowd, the peer-to-peer business software review platform, had recognised DBizLabs in the Q3 2026 reports (released 1 September 2026) as:

- LEADER in the "Industrial RAG (Manufacturing)" category (Meiji MES, ranked #1 in both Implementation ROI and Usability)
- LEADER in the "HR Chatbots & Virtual Assistants" category (Hirethm, for the second consecutive quarter)
- HIGH PERFORMER in "Generative AI for Financial Services" (Bond Copilot ? missed Leader by 2 review points; targeted Q4 Leader)

Additionally, DBizLabs won 6 competitive deals specifically identified by the customer as having used a Gartner-designed RFP evaluation framework for enterprise AI platform shortlisting. The CPO noted that the Gartner "AI Trust, Risk and Security Management (AI TRiSM)" reference architecture was increasingly referenced in enterprise RFPs, and the Governance Pillar of the AI Strategy (File 5) was the strongest differentiator against competitors on those evaluation criteria.

6.4 Near-Term Product Roadmap Releases

The CPO presented the confirmed and committed near-term roadmap:

- 20 October 2026: Bond Copilot 2.0 General Availability. Major features: Complete yield curve modelling module, bond price scenario simulator (15 concurrent stress scenarios per portfolio), MAS Notice SFA 04-N16 regulatory reporting export, support for 9 additional local currency government bond markets.
- 3 November 2026: Hirethm Applicant Tracking System v3 General Availability. Major features: AI-powered interview copilot, structured de-biased candidate shortlisting (blind to name, age, gender, university), native integration with LinkedIn Recruiter System Connect, multi-language job descriptions in 14 languages.
- 10 November 2026: Meiji MES OEE Live Wallboards General Availability. Major features: Plant-floor 55" touch wallboard UI, real-time OEE streaming with 2-second update cadence, AI-driven OEE root-cause alerts (42 alert playbooks pre-configured for the 12 highest-frequency downtime causes), mobile iOS/Android companion app for line supervisors.

The CPO confirmed that all three release dates had been re-baselined in the Q4 roadmap prioritisation workshop (Action Item 47-07) and were currently tracking at 96% confidence in the internal release risk model.

=====

ITEM 7: PEOPLE & ORGANISATION UPDATE (10:40?10:55)

=====

Ms. Divya Muthu, Chief Operating Officer, presented the People & Organisation update (Board Pack Tab G, 18 slides).

7.1 Headcount and Hiring Statistics

Total headcount (FTE, full-time permanent, excluding contractors and interns) as at 30 September 2026: 317, compared to 260 FTEs at 30 June 2026 (end Q2 FY2026) and 225 FTEs at 30 September 2025.

Net new hires year-to-date (FY2026, 1 Jul 2025 ? 30 Sep 2026): 58 net hires (92 gross hires less 34 departures = net 58).

Functional breakdown of the 317 FTEs:

Engineering + R&D:	135	42.6%
Sales + Marketing:	71	22.4%
ProServe + Customer Success:	60	18.9%
General & Administrative:	51	16.1%

Time-to-fill (average days from requisition approval to accepted offer):

- Engineering roles: 58 days (target <60 days ? GREEN)
- Sales roles: 72 days (target <65 days ? AMBER; COO to review GTM recruitment sourcing channels; 2 additional search firms on-boarded 15 Sep)

- G&A / People / Finance roles: 41 days (target <45 days ? GREEN)
- ProServe / CSM roles: 47 days (target <50 days ? GREEN)

Hiring manager satisfaction scores (5-point scale, exit survey for each filled requisition):

Engineering hiring managers: 4.2 / 5.0
Sales hiring managers: 3.8 / 5.0 (below 4.0 target; AMBER)
Overall: 4.0 / 5.0

7.2 Attrition

Trailing 12-month voluntary attrition: 11.2%, down from 14.5% at end of FY2025 (30 Jun 2025) and below the FY2026 Board-approved attrition target of 13.5%.

By function (TTM voluntary attrition):

R&D / Engineering: 9.4%
ProServe / CSM: 11.7%
G&A: 12.1%
Sales & Marketing: 14.2% (highest; driven primarily by two mid-level SDR managers leaving for competitor roles in late Q2. Exit interviews cited base-salary market positioning; RemCo approved in its 8 Sep 2026 meeting a mid-cycle targeted adjustment for 18 sales roles to address the gap, effective 1 October 2026 payroll.)

By gender (TTM voluntary): Women 10.8%, Men 11.7%. No material gap.
By tenure: 0-12 months attrition 16.4%, 1-3 years 13.1%, 3+ years 5.6%.
This profile is consistent with the high-tech SaaS sector.

7.3 Diversity and Inclusion (D&I) Metrics

The COO reviewed the Q3 FY2026 D&I dashboard, which feeds into the annual D&I report prepared for the Board's Remuneration and Nominating Committee:

- (a) Gender diversity:
 - Overall workforce: 51% women, 49% men (vs. 47% / 53% in Q3 FY25)
 - Engineering function (commonly lagging): 42% women engineers, up from 36% in Q3 FY25, against 2027 target 45%
 - Executive team (CxOs + VPs reporting directly to CEO): 4 of 9 (44.4%) are women
 - Board of Directors: 5 of 7 (71.4%) are women and/or independent directors (specifically: 3 women + 2 independent men = 5/7 independent or women). Meets the mandatory 50% threshold under the upcoming SGX listing diversity rules, should the company proceed with IPO at a future date.
- (b) Ethnicity / Nationality: 26 nationalities represented in the 317 FTE workforce. Top 5: Singaporean (34%), Indian (23%), Japanese (11%), UK/Ireland (8%), US/Canadian (7%).
- (c) Age profile: 22?30 41%, 31?40 38%, 41?50 14%, 51+ 7%. Median age 31.8 years.
- (d) LGBTQ+ self-identification: 8.4% (voluntary self-declaration rate on the self-ID form: 92.1%).

7.4 Job Architecture Refresh Completion

The COO confirmed that the company-wide job architecture refresh (commenced in April 2026, conducted with external consultant Aon Hewitt) was on schedule for completion by 31 October 2026. Deliverables to date:

- Grade and level definitions for all 9 function families (38 job families total) finalised and signed off by all ELT members
- Pay matrix v4.1 (Appendix A of Employee Handbook v4.2) implemented on 1 August 2026, with pay-band corrections to 37 employees below the minimum of their new band (cost: S\$285,000 per annum, fully absorbed in FY2027 payroll budget baseline)
- Remaining deliverables: Final mapping of all 317 FTEs to new job titles, publication of career ladders on the internal People Hub, and organisation-wide rollout session (target: 22 October 2026, full-day "Career Growth at DBizLabs" Town Hall at Marina One Great Room + virtual stream for regional offices).

=====

ITEM 8: RISK & COMPLIANCE UPDATE (10:55?11:15)

=====

Ms. Priya Venkatesh, Head of Internal Audit & Risk, presented the Risk and Compliance update (Board Pack Tab H, 31 slides including the Q3 updated Risk Register heatmap).

8.1 Singapore AI Governance Act ? Impact Assessment (Phase 1)

Ms. Venkatesh tabled the Phase 1 report of the Singapore AI Governance Act impact assessment (Action Item 47-09, status In Progress ? 9 Sep 2026 version distributed under separate cover to all Board members).

Key summary:

- Systems classification: 24 individual AI deployments identified across the 3 product lines. Tiering per the First Schedule of the Act (passed by Parliament 20 Nov 2025, in force 1 Feb 2027, with 12-month transition period):
 - * Tier 3 (High Risk ? mandatory conformity assessment): 3 systems: (i) Hirethm Candidate Shortlisting and Ranking module, (ii) Meiji MES Predictive Quality AI (when used as basis for release-to-customer decisions), (iii) Bond Copilot pre-trade compliance check engine.
 - * Tier 2 (Moderate Risk ? transparency and record-keeping): 11 systems, including general Agentic Copilot, OEE root cause alerts, Bond yield curve scenario simulations.
 - * Tier 1 (Low Risk): 10 consumer-facing chat and FAQ assistants.
- Action items identified to date: 47 individual remediation items. Priority 1 (before 1 Feb 2027): 22 items.

- Estimated cost of compliance programme (technology, process, people, external conformity assessments for Tier 3 systems): S\$1.98 million over the 12 months to 30 September 2027.

UNANIMOUS BOARD RESOLUTION B-48-06:

RESOLVED THAT the Phase 1 SG AI Governance Act Impact Assessment report dated 9 September 2026 (Tab H, Annex 2) be and is hereby NOTED AND APPROVED, and the proposed remediation budget of up to S\$2.0 million over the period 1 Oct 2026 to 30 Sep 2027 is hereby authorised for expenditure, with monthly progress reporting to the Audit & Risk Committee and a further substantive update to the Board at the 11 December 2026 meeting.

Voting: 7-0-0. CARRIED UNANIMOUSLY.

8.2 Data Protection Audit (PDPA) ? Findings

The semi-annual PDPA compliance audit (conducted by external consultant CS Privacy Consulting Pte. Ltd., 12?23 August 2026) identified 12 findings in total:

Severity breakdown: 0 CRITICAL, 2 HIGH, 6 MEDIUM, 4 LOW.

Status of findings as at 11 September 2026:

- 8 of 12 findings: CLOSED and remediated
- 4 of 12 findings: IN PROGRESS, with committed remediation dates on or before 30 September 2026

The 4 open findings were (all Medium severity):

- (a) Insufficient redaction of free-text resume fields in Hirethm staging DB ? PII (NRIC, passport numbers) visible to QA engineers not under production access policy. Owner: Head of Engineering, Hirethm. Remediation: Automated PII-scrubbing pipeline deployed to staging environments by 27 Sep 2026.
- (b) Vendor HR background-check provider (SwiftCheck) did not yet have a signed 2026 Data Processing Agreement (DPA) annex updated to reflect the new PDPA transfer impact assessment for cross-border transfer to Malaysia data centre. Owner: Head of People Ops. Remediation: Signed DPA by 29 Sep 2026.
- (c) 7 of 92 employee laptops reviewed had stale personal data of former employees on local drives in violation of retention schedule. Owner: Head of IT Ops. Remediation: Automated device scan + purging policy + 7 device rebuilds by 30 Sep 2026.
- (d) Bond Copilot customer data export logging for one EU tenant missed 3 audit events during the 22 Jul EU cluster migration window. Owner: Head of SecOps. Remediation: Manual log recreation + permanent enhanced export alerting by 26 Sep 2026.

Head of Legal (Santhana Krishnan) confirmed that none of the 12 findings individually or collectively gave rise to a notifiable data breach under PDPA Section 26, and no notification to PDPC was or is required.

8.3 Cyber Security Ransomware Drill ? 26 August 2026

Head of IA presented the post-incident report of the full tabletop + technical ransomware recovery drill conducted on 26 August 2026, between 14:00 and 17:12 SGT.

Summary of drill:

- Scenario: Sophisticated "double extortion" ransomware (modelled on the BlackCat/ALPHV variant) encrypted the primary ap-southeast-1 PostgreSQL volume, with simulated threat actor exfiltrating 120 GB of sample non-production test data before encryption and posting a S\$4.8 million ransom demand.
- Crisis response activation: CTO declared P1 incident at 14:03. CMT fully assembled by 14:09 (exceeded 15-minute target by 6 seconds).
- Recovery actions:
 - (a) Isolated affected Kubernetes namespaces at 14:12
 - (b) Failover to eu-west-1 standby cluster (regional DNS cutover) completed at 15:38 ? customer-facing tenant dashboards back online read-only by 15:47
 - (c) Full primary restore from immutable AWS S3 Glacier backups (30 Aug 2026 01:45 snapshot) completed at 17:08
 - (d) Validation of all 142 production tenant schemas complete, zero data loss, integrity verified.
- Drill official recovery time: 3 hours 12 minutes (from initial encryption declaration to full primary-cluster validated production availability). Target: < 4 hours ? PASSED.
- Lessons identified (8 items, all non-critical, owners and dates assigned, latest 31 Oct 2026). Most notable: Immutable backup snapshots should be increased from 24-hour cadence to 6-hour cadence for the most critical Tier 3 tenant datasets; cost impact S\$7,200 per annum approved by CFO verbally during the meeting.

8.4 Vendor Due Diligence ? High-Risk Re-bidding

The Q3 vendor tiering review reclassified 3 existing vendors as HIGH RISK under the DBizLabs Third-Party Risk Management Framework (v2.1):

- Vendor V-0147: Third-party customer support BPO (Philippines). Re-bid tender issued 4 Sep; proposals due 25 Sep. Shortlist 4.
- Vendor V-0208: Background screening provider (SwiftCheck). Partially addressed under open finding 8.2(b) with renewed DPA; re-tendering this vendor in parallel.
- Vendor V-0233: Cloud-based payroll services vendor for India entity. Re-bid underway; contract expires 31 Dec 2026.

All 3 re-bids will complete evaluation and award recommendation by the 31 October 2026 Board Audit & Risk Committee meeting.

8.5 Foreign Exchange Exposure Sensitivity

Head of IA reported that the updated Q3 FX sensitivity analysis (also

- referenced by CFO under Item 4) showed:
- Outstanding unhedged USD-denominated exposure: S\$4.2 million (net 6-month forward view, revenue less cost hedges)
 - Sensitivity per 1% adverse SGD/USD movement (SGD weakening): S\$42,000 negative impact on quarterly EBITDA
 - Current 1-year Value-at-Risk (95th percentile, parametric VaR) for the total FX book: S\$186,000 ? unchanged from Q2 and within the Board-approved S\$500,000 quarterly FX VaR appetite.

The Board expressed satisfaction with all Item 8 updates and thanked Head of IA and Head of Legal for their thorough work in the quarter.

ITEM 9: ANY OTHER BUSINESS (AOB) (11:15?11:25)

9.1 CEO Dinner with Temasek Holdings CTO
The CEO requested and received Board concurrence to host a private working dinner with Mr. Chia Song Hwee, Chief Technology Officer of Temasek Holdings (Private) Limited, on Thursday, 24 September 2026, 19:00 at Odette Restaurant, National Gallery Singapore. Expected attendees: Temasek CTO + 2 of his investment team, DBizLabs CEO + CTO + Chairman. Estimated cost S\$4,800 (well within the S\$10k limit approved per single senior stakeholder engagement). Discussion topics expected: AI investment landscape in SG, potential commercial pilots of Bond Copilot within Temasek portfolio companies, and broad general exchange on AI safety/governance. No shareholder-specific matters.

9.2 CTO Speaking at Singapore FinTech Festival 2026
The CTO informed the Board that she had accepted an invitation to speak at the Singapore FinTech Festival 2026, 13 November 2026, on a panel entitled "Agentic AI in the Capital Markets: From RAG to Reasoning." The festival is organised by the Monetary Authority of Singapore and is one of the largest financial services conferences globally. Speaking slot: 45-minute panel at the AI in Finance Summit, 11:30 SGT. No remuneration; standard FOC pass + travel within SG. PR/marketing benefit for Bond Copilot and DBiz GPT estimated at S\$120k+ equivalent ad value. Board thanked her in advance and wished her well.

9.3 Annual General Meeting (AGM) FY2026 Date
The Company Secretary, on behalf of the Chairman, circulated the proposed date for the FY2026 Annual General Meeting (covering the financial year 1 July 2025 ? 30 June 2026, which is the statutory FY) as SATURDAY, 20 FEBRUARY 2027, 10:00 SGT, Level 22 Great Room, Marina One West Tower. Statutory deadline for holding the AGM is 4 months after the financial year-end (i.e. by 31 October 2026 for a 30 June FY-end), but the Company as a private exempt company with fewer than 50 members and wholly owned by private investors had elected at last AGM to follow the Board-approved 20 Feb 2027 schedule for FY2026 with all member consents filed. Shareholder notifications will be despatched no later than 23 January 2027 in compliance with the Constitution. Directors were asked to hold the date.

9.4 Investor Day ? 18 March 2027
The CEO proposed that the company host its first formal Investor Day for Series B investors, potential Series C candidates (should the company choose to raise), and selected analysts / strategic partners on THURSDAY, 18 MARCH 2027, at the Capella Singapore, Sentosa. Estimated attendance: 60?80 invitees. Agenda: 08:30 ? 17:00 followed by cocktail reception. Board endorsed the concept in principle; detailed budget and agenda to be approved at the 11 December 2026 Board meeting.

9.5 Correspondence
A letter from IRAS (dated 29 August 2026) regarding the FY2024 corporate income tax assessment, which had been resolved with no additional tax payable, was tabled by the CFO for information. No Board action required.

No further items of AOB were raised.

ITEM 10: CONFIRMATION OF DATE OF NEXT MEETING (11:25?11:27)

The Chairman, on the recommendation of the Company Secretary, proposed the date of the 49th Regular Board Meeting as:

DATE: FRIDAY, 11 DECEMBER 2026
TIME: 09:00 HOURS SGT
VENUE: GREAT ROOM, LEVEL 22, MARINA ONE WEST TOWER, SINGAPORE 018961.

UNANIMOUS BOARD RESOLUTION B-48-07:
RESOLVED THAT the date, time, and venue for the 49th Regular Board Meeting of DBizLabs Private Limited be fixed at Friday, 11 December 2026 at 09:00 hours SGT, at the Great Room, Level 22, Marina One West Tower, 10 Marina Boulevard, Singapore 018961.

Voting: 7-0-0. CARRIED UNANIMOUSLY.

ITEM 11: ADJOURNMENT (11:27?11:28)

There being no further business, the Chairman declared the 48th Regular Board Meeting of DBizLabs Private Limited adjourned at 11:28 hours SGT on Friday, 11 September 2026. The next meeting shall convene on 11 December 2026 at 09:00 hours.

Minutes prepared and circulated for review by the Company Secretary within 14 days of the meeting (by 25 September 2026). Directors to submit any corrections or confirm approval within 7 working days of circulation, failing which approval of Minutes is deemed to have been given.

Signed:

Dr. Lingeswaran Arunasalam

Date: _____

Chairman of the Board

Ms. Sangeetha Murali
Rajah & Tann LLP

Date: _____

Company Secretary
